INTRODUCTION

Welcome to Infinity Wallet, the all-in-one non-custodial wallet & Web3 ecosystem! Our goal is to revolutionize the way users interact with the decentralized space, empowering them to take ownership of their crypto and explore the world of Web3, DeFi, NFTs, and cross-border payments. With a focus on improving the user experience, delivering an enhanced user flow, high quality interface and a wide range of services, features & solutions, Infinity Wallet aims to be the ultimate one-stop ecosystem for all a user's crypto needs. Our mission is to provide users with a seamless, secure and user-friendly experience, bridging the gap between CeFi/Web2 and DeFi/Web3.

Join us as we embark on this thrilling journey to unlock the infinite possibilities of a decentralized future!

ENABLING A DECENTRALIZED FUTURE

From the outset we could recognize blockchain's transformative potential. Our goal is to spearhead the decentralized revolution, driving widespread adoption of DeFi and Web3. We're dedicated to delivering products that offer an enhanced, user-friendly, feature-rich, and seamless experience, empowering global adoption for all.

GLOBAL INEVITABLE

MISSI

ADOPTION IS

While experts, analysts, and financial gurus predict it, we're confident in our belief! By 2035, over half the globe will shift from traditional centralization (CeFi/Web2) to decentralization (DeFi/Web3), and Infinity Wallet will serve as the bridge facilitating this seamless transition to the decentralized world for all.

VISION

TRACTION

THE PROBLE

COMPLEX USER EXPERIENC | 7

- DeFi presents usability challenges, whereas CeFi sacrifices security;
- Fragmented platforms with challenging user flows, cluttered interfaces, and confusing UX;
- Poor or insufficient customer support, hindering user adoption;
- Generally designed for use by tech-savvy users, rather than for onboarding new users (lack of new wallet solutions, gas abstraction etc.);

- one-stop experience;
- platforms;
- multi-sig etc.);

WE'RE CATERING TO THE MAJOR GAPS IN THE CRYPTO, DEFI AND WEB3 MARKET:

LACK OF A **ONE-STOP** SOLUTION

Limited in-platform features & services, lacking a curated and

Time-consuming & not cost effective, to research and use multiple different

Limited interoperability (EVM & non EVM), limiting users and requiring use of multiple wallets & services;

Limited wallet options (such as account abstraction, hardware wallet, LIMITED WEB3 ACCESS

Hard to discover and interact with DApps;

Limited cross-chain support for Web3, lacking a smooth multi-chain experience (EVM & non-EVM);

Web3 on desktop limited to browser extensions, which are not built for mass adoption and have poor UX with limited functionality and usability;

Hard to use DApps across different chains at the same time;

01

POWERING CRYPTO, WEB3 & DEFI

Wallets are the core components crucial for adopting, accessing, and leveraging blockchain, DeFi, & Web3. Infinity Wallet is a backbone of the entire decentralized space, enabling engagement with a myriad of offerings including Web3, DApps, DeFi, Games, NFTs, Metaverse, Identity, and a plethora of other decentralized products/services.

03

ALL-IN-ONE ACCESS POINT

Users are often burdened by the need for multiple wallets and platforms, we're here to revolutionize the experience. By seamlessly integrating functionality and usability, our ecosystem offers users a single point of access for all their needs across different chains (both EVM & non-EVM), creating a comprehensive one-stop ecosystem.

PRODUCT VALU

02

ACCESSIBILITY & USER EXPERIENCE

We continuously develop and prioritize launching new features & services working closely with users, to cater to their evolving needs. Our primary focus is on delivering solutions that offer a frictionless user experience and interface, addressing existing UX issues and ensuring easy accessibility for both seasoned crypto experts and newcomers alike.

04

NOT YOUR KEYS NOT YOUR COINS!

Users have faced significant losses due to placing trust in centralized platforms to safeguard their crypto assets. We prioritize security with utmost seriousness, leveraging self-custodial and decentralized protocols/services, so that users can have full control over their digital assets and data at all times.

Our aim is to establish Infinity Wallet as the ultimate all-in-one platform ecosystem built for the masses. To achieve this goal, we will focus on building solutions such **as:**

- **Mobile wallet** (Android & iOS);
- **Account Abstraction** (one-click social wallet account abstraction);
- In-wallet staking tokens/chains;
- **Referral/Affiliate Program**
- Hardware wallet support (Ledger & Trezor);
- **DeFi Lending & Borrowing** (earn from lending & easily one-click borrow);
- **Infinity DeFi Bank & Crypto Card** (enabling real-world spending);
- **Crypto bags** (ability to buy a single index to gain exposure to multiple) cryptos, in a single click);
- Multi-sig Wallet (easily manage multi-sig wallets, targeting businesses);
- **Standalone Web3 Browser** (a browser for Web3);
- **Infinity Hardware Wallet** (a user friendly Hardware wallet);
- **RPC & API provider** (enable developers to access our infrastructure);
- **Gas Abstraction** (enable users to pay gas fees on EOA & Abstracted wallets when sending tokens, removing one of the biggest hurdles);

& much more...

FEATUR

MULTIPLE WALLET OPTIONS

With just a click, instantly create or recover a social wallet designed for mass adoption. Generate a self-custodial seed wallet. Or seamlessly connect your hardware wallet or multi-sig wallet in the future!

WALLET MANAGEMENT

Experience a global DeFi payment platform enabling instant payments. Store, send, receive, request, manage & track 250k+ assets across supported chains. Enjoy features like live balance tracking, detailed transaction history, real-time charts, and transaction status notifications.

PORTFOLIO MANAGEMENT

Effortlessly oversee and manage your complete digital asset and DeFi portfolio at a glance. Gain insights into asset allocations, earnings, historical charts, price data, and more, all in real-time.

WEB3 & DAPP BROWSER

Connect seamlessly to any Web3 platform or DApp without the hassle of using cumbersome & unfriendly browser extensions. Introducing our in-wallet Web3 Browser, the first of its kind on Desktop, offering intuitive access to the decentralized web directly from your wallet.

COMPETITIVE ADVANTAGE

ENHANCED USER EXPERIENCE

A superior & seamless user experience is what our brand stands for. From user interface, to live user support, low fees, multiple wallet solutions, all services/features a user needs, and a focus on solutions for account & gas abstraction, we strive to enable adoption and continue to build for users of all levels of technical expertise for easy onboarding.

A VETERAN TEAM

With nearly a decade of involvement in the crypto space, we've amassed a wealth of experience and developed a profound understanding of existing challenges. We're keenly aware of the gaps and necessities required to onboard the next billion users.

A COMPLETE SOLUTION

Building to provide users with a more curated in-platform experience, serving as a one-stop hub, and offering a comprehensive suite of continually expanding in-house features, services, and products to meet all their DeFi, Web3, NFT, Crypto, and Payment needs.

ALL CHAINS ONE PLATFORM

Support for all chain types (EVM, non-EVM & L2s), enabling easy utilization of multiple chains within a single platform. This ensures seamless interoperability between chains and eliminates the need for multiple wallets for different chains.
